

## Are You In There?

©1997 by Dan Curtis

Waiting for you to come up  
I've been here again  
How many times, how can I  
put up this stupid game?

You're out there somewhere  
While I'm in here  
You're never there  
While you lay beside me  
I wonder  
are you in there?

Sometimes it's raining sunshine  
blue skies rain  
Sometimes the sunshine in your face  
just covers pain

Your right here somewhere  
Aren't you dear?  
Are you in here?  
Did I hear you saying something  
who am I now  
your one way out?

(ad lib)

It's always... it's always .. it's always something – always you  
It's always me

(repeat & fade)
